RE: Kuriana Brown, DOB 7/24/08

To Whom It May Concern:

Kuriana Brown is a patient at Cardinal Glennon Medical Center. She currently receives treatment for Liver Disorder and has a lesion on her liver. Her condition causes her to experience severe pain and nausea. A lack of utility service during this time of year could adversely impact Kuriana's health by causing an increase in symptoms and susceptibility to illness.

If you have any questions or concerns, I may be reached at (314) 577-5647.

Sincerely,

Ajay Jain, MD
Pediatric Gastroenterologist
