

Ohio Crime Victim Justice Center *PRESENTS*

Equity in Victim Services Webinar Panel Series:

Respect, Fairness & Dignity
for ALL
Crime Victims

WHAT

As an organization, we have challenged ourselves and one another to reflect on the work we have done over the years within the victims' rights context, and, through that self-reflection, we have learned that we have not done enough.

The murder of George Floyd, and countless others like him, was a wake-up call for us, as we hope it was for others in victim services and criminal justice. We began several initiatives within our office with the end goal of assuring that our staff and services are aware of, responsive to, and challenging of the inequities people of color and other undeserved victims too often face in the criminal justice process.

As a result, we have learned a great deal about how we can do our part to promote equity throughout the criminal justice process. We feel compelled to share with others the tools and resources that we have utilized to begin to do our part.
