

# DO YOU HAVE ASTHMA?

AIRnyc Community Health Workers visit families at home to help adults and children stay healthy and out of the hospital. Ask your doctor for a referral to AIRnyc!

address

## Here's how AIRnyc works:

AIRnyc calls and schedules a visit at your home at a time that works for you.

We help you understand asthma, so you can better manage your symptoms.

We'll review how to store, use, and manage medications.

We'll refer you to other services, such as:

- Quit Smoking Programs
- Pest Control
- Legal Assistance
- Food Access
- Housing Services

### Profile of an AIRnyc Community Health Worker:

- **Fatima Kourouma** joined AIRnyc in 2011
- Moved to New York City from Guinea, West Africa at the age of 13
- Oldest of five siblings
- Fluent in Susu, French, and English

AIRnyc is a nonprofit organization that helps families stay healthy, active, and out of the hospital through better chronic disease self-management. Our Community Health Workers speak Spanish, French, Susu, Mandingo and English and are from your community.
