CBH is the mental health HMO for Philadelphians with Medical Assistance. CBH oversees many programs that private insurances do not pay for such as therapeutic preschools, Wrap-Around services and home-based family therapy. Families with private insurance can obtain Medical Assistance (in most cases) for their disabled child (called PA95, or “the MA loophole”). For more information on how to apply for Medical Assistance, see page 32.

### **What is Wrap Around?**

Wrap Around (aka: BHRS) is a behavioral health support service provided by a team that may consist of a Behavior Specialist Consultant (BSC), a Case Manager and a Therapeutic Support Staff (TSS) Worker. The child must have a psychiatric or psychological evaluation recommending Wrap Around that is written by an approved provider. If a child has private insurance, CBH is required to request that the psychological evaluation is done through the private insurance provider first. Families who have MA can contact a wraparound service provider directly or apply through CBH. *This service is NOT provided through the Pennsylvania Department of Education or Elwyn SEEDS. Wrap Around staff are not childcare staff, they must work with a child when a “responsible adult” is present, they do not participate in personal hygiene care such as changing diapers. Wrap around providers are listed on pages 2-7.*

### **Behavioral Health Services and Act 62**

Families with private insurance may be entitled to have behavioral services covered up to \$36,000/year. To qualify for Act 62 the private insurance must come from an agency that has 50 or more employees and is not “self-insured” or “ERISA”. To see if you qualify, visit:

## **Medical Assistance and SSI**

### **MA for Children with a Disability – Known as PH95**

MA (Medical Assistance) is medical insurance that may cover things that your child’s primary insurance does not cover. If your child is disabled you may want to explore obtaining MA benefits for him/her.

### **What does MA pay for that my private insurance might not cover?**

For a child, MA covers everything that is medically necessary. Among those services are:

**Wrap-Around Services**--Wrap-Around services provide some children with a mental health diagnosis home or school based behavioral supports and therapy. For a list of wrap around providers, see pages 2-7.

**Medical, Nursing and Home Health Aide Services**-- MA can pay for medical or therapy equipment, co-pays, deductibles, transportation to medical appointments, medical bills not covered by your insurance (from up to 3 months ago) and nursing services that are medically necessary.

**The Diaper Program**-- Diapers are paid for by MA when a child continues to need diapers after the age of 3 due to his/her special needs. See page 33 for more information.

***MA is a medical insurance program. It is state funded and administered through the PA Department of Public Welfare; HOWEVER, it is NOT WELFARE. Once your child receives MA you will need to recertify his/her case annually, either over the phone or through the mail. If you already have private insurance you can keep it and also obtain MA to supplement your child’s coverage.***

**Transportation to medical appointments** [www.logisticare.com](http://www.logisticare.com)

The Medical Assistance Transportation program can provide rides or reimbursement for public transportation or car use for a parent and a child going to or from a medical appointment. Call LogistiCare at 1-877-835-7412 or online go to

<http://www.dpw.state.pa.us/foradults/healthcaremedicalassistance/>

After completing the application, please write “**MA FOR DISABLED CHILD HANDBOOK SECTION 355.4**” across the top of the form. This will alert the caseworker to consider the child for eligibility because of their disability.

2. **DOCUMENTATION!!!!** You will need to provide proof of everything you are saying about your child by providing copies. For example: proof of citizenship (a birth certificate), proof of identity (such as a government issued photo ID (school-issued ID card,) address (a utility bill), disability (medical or psychological evaluation written by a licensed clinician within the last 3 months.), proof of any income in the household, including income received in the child’s name, and copies of any unpaid medical bills owed from the last 3 calendar months. You will also be asked to show proof that you did apply for SSI and were rejected due to income. For families who do not meet the poverty guidelines for SSI, this rejection letter can be obtained over the phone.

### **...a word about SSI:**

SSI, (Supplemental Security Income), is a federally funded program which provides a monthly check **and** Medical Assistance for people who qualify. To qualify you must have a disabling condition PLUS financial requirement of living below the poverty line. To apply, call **800-772-1213**, or log on to [www.ssa.gov](http://www.ssa.gov).

This letter will contain the name and phone number of the caseworker assigned to your child’s application. They may need more information. Keep in mind that the state rule says that you do not need to go to the office at all for an appointment, you can phone, fax or mail information.

## **The Diaper Program (Only for children over 3)**

If your child is three years of age or older and is using diapers because of a developmental delay or medical reason he/she can receive a case of diapers and wipes delivered to your home on a monthly basis.

### **For Child with Medical Assistance, here is what you can do:**

Call your child's health provider (this is usually the number written on the back of your medical card).

1. Ask the insurance provider what Durable Medical Equipment Company they contract with in your area and get the name and phone number of that company.
2. Call the equipment company and explain that you want to get your child on the diaper program. They will do an intake with you over the phone and then they will ask you to call your doctor and have the doctor fax a prescription for diapers and wipes to them. **Get the equipment company's fax number.**
3. Call your doctor's office and explain that you need to fax a prescription for diapers directly to the equipment company. The prescription needs to include the child's size and diagnosis.
4. Soon you will begin to receive diapers each month. You will need to renew this process each year if your child continues to need them.
5. If you do not receive the diapers and wipes please call the Medical Equipment Company to check in with them.

### **For children with Private Insurance in addition to Medical Assistance (i.e. from a parent's job).**

1. Submit the diaper prescription to the private health plan for payment to the durable medical equipment company.
2. The private health plan will deny the payment. Ask for a denial letter in writing.
3. Resubmit the claim to the medical assistance plan provider with the written denial from the private health plan.
4. The durable medical equipment companies can guide you through the rest of the process.
