## HOW TO USE THIS GUIDE and OTHER TIPS

\*This guide is a reference for the Philadelphia Special Needs Community. It is not meant to be a comprehensive listing of all resources but a starting place to begin to get help. Please note that the resources listed herein are generally geared toward underserved populations and programs that support evidence based practices.

\*This guide is set up for copying individual pages, please be considerate of our environment and **DO NOT COPY AND GIVE OUT THIS ENTIRE GUIDE TO FOLKS WHO MAY NEED JUST A FEW RESOURCES**. Thank you for doing your part to PROTECT OUR ENVIRONMENT. The front cover lists three different websites that you can use to find this guide on line.

### TIPS, FACTS AND F.A.Q.'S

**Q:** Where can I get an evaluation for my child where there's no long wait list.

**A:** There are many places WITHOUT a waiting list! See pages 4-11

**FACT:** MANY TYPES OF PROFESSIONALS CAN EVALUATE CHILDREN FOR AUTISM AND ADHD INCLUDING PSYCHOLOGISTS, PSYCHIATRISTS, NEUROLOGISTS, NURSE PRACTITIONERS, LICENSED CLINICIANS & DEVELOPMENTAL PEDIATRICIANS. There are many methods for looking at a child's needs. It's a myth that only a developmental pediatrician can diagnose Autism.

**FACT:** Sometimes clinicians who diagnose a child will make recommendations for certain treatments and services (behavioral or educational.) Different systems may not always be able to honor or accommodate these recommendations because systems differ in their approach to working with children's needs. Remember that no one skill area is the domain of one type of expert such as a speech, occupational or an ABA therapist. Taking a child to an office to practice skills in isolation with a specialist does not have long lasting effects compared to parents joining the therapist and learning meaningful skills, remember that the quality is always better than quantity and "more is not always better." Best practice is when a therapist teaches skills that family members (or teachers) learn how to do themselves and, blend them into their regular routines so that they become natural for a child and family. Also keep in mind that just because someone has a degree in a certain field it does not always mean they have specific training and experience in working with certain types of children's needs. For example, not all Speech Therapy programs offer training on working with children with Autism.

**Q:** My family doesn't believe in labeling our child and we don't want our child to have a diagnosis.

**A:** Although you may be fearful that your child will be thought of differently if they have a diagnosis, or that a "label" will affect his choices in the future; avoiding an evaluation that will help you better understand your child's needs will only prolong your child's difficulties. We as parents may sometimes want to protect our children but in fact we may be preventing them from getting help they really need. When children can access needed services, their long-term abilities are more improved and they develop less problems because they, and those who care for them, are getting help sooner.

**Q:** Can a medication help my child with his behavior?

**A:** Medication is never an answer by itself. Not all behaviors change with a medication and medications do not teach a child needed skills to last their lifetime, parents do. If your child has behavioral needs we strongly recommend that you try **PCIT** (see page 9) or **Filial therapy** in addition. There are many things families can do to help a child with their behavior in addition to medications, please consult with your child's **IEP team** to review new things you might try too! There are many helpful tools that you can find to address behavior no matter what your child's needs are on page 15.

**Q:** What is the difference between a psychiatrist and a psychologist?

**A:** A psychiatrist is a medical doctor who can prescribe medications. A psychologist is not a medical doctor and cannot prescribe medications. A psychologist generally has more training on how to evaluate children for behavior and learning problems.

**Q:** What is ADHD or ADD?

**A:** Attention Deficit Hyperactivity Disorder or Attention Deficit Disorder. This syndrome is easy to misunderstand especially when a child may, in addition, have trouble with communicating and playing with others. Just like a "cold" is different each time and is made up of many parts such as a fever, or runny nose, ADHD is really a general description of what happens when some, or many, of a person's **Executive Functioning Skills** are not working efficiently. **Executive Functioning Skills** are how our minds organize and manage information, check out this link to better understand them and the real parts of ADHD/ADD:

<https://www.understood.org/en/learning-attention-issues/child-learning-disabilities/executive-functioning-issues/key-executive-functioning-skills-explained>

**Q: What can I do about my child's behavior, I'm waiting for behavior therapists and teachers to help me and they're not.**

**A:** Although this can be a difficult situation, and you should be requesting a meeting with your child's provider to discuss services, whether your child has services or not, there are many reasons for **you to become the expert for your child**, here are some things YOU can do on your own to make the best use of your time.

1. Make sure you have a good diagnostic evaluation of your child so that you understand if they are needing special supports.  
2. Use visuals in as many ways possible to show what you expect and what is happening next, even if your child can speak! See Linda Hodgdon's handout here:

<http://www.citrus.k12.fl.us/ese/Powerpoint/Using%20Visual%20Supports%20to%20Solve%20Problem%20Behaviors%20in.pdf>

Use the other resources on page 15 to learn what things you can make and do at home or in your school.

3. Make sure your child does a physical activity, no matter what his disability is, **three times a day**.

4. Make sure you develop structure, predictable routines, clear and consistent consequences for both good and bad behaviors.

5. Make sure that your child does NOT have access to everything he wants all the time so that he learns about asking for things and putting things away. When a child has everything he wants, he will not be motivated to change his behavior.

6. Make sure to find 5 minutes a day without electronics to play with each of your children, even if you have many children.

7. Remember that all children have tantrums and the more consistent and calm your reactions are to these, the less your child will find that having a tantrum gets him what he would like. It can be hard and frustrating to allow your child to have a tantrum but addressing this behavior will pay off his future.

8. Remember that no matter how wonderful your child's therapists are, you cannot always depend on outside help (and special services generally only last until a child is 21 years old.) Use this time to become the expert by learning ways you can support your child in all areas in order to have the most enriched and meaningful time with your child now and in his future.

**Q: If we are a multilingual family and my child has language delays, should I stop speaking with him in our native language?**

There is a lot of research proving that speaking multiple languages is NOT obstructive for skill development in children with special needs including Autism. The myth that children are "confused" or it delays a child's language is something that untrained but well-meaning people say to offer parents something to do (or rather NOT do.) Please check these out:

<https://multilingualparenting.com/2014/01/29/bilingual-parents-what-to-do-if-you-are-told-to-drop-one-of-your-languages/>

<https://www.youtube.com/watch?v=Dcv8EylhoYc&list=PLXehS00uRKcg5Ha9hVRnn71jX0-pWKZvh>

**Q. I am not satisfied with my child's services, what do I do?**

A. It is a parent's responsibility to inform the provider if services are not satisfactory. Parents always have the right to request a meeting with their child's provider. It is best to request a meeting via email (in writing) rather than a phone call, so that there is a record and date of the request. It is also important to copy another person in your email in case there is a problem with the provider's email. If your child receives services from Elwyn Early Intervention, the contact information for Service Coordination can always be found at their home page:

<https://www.elwyn.org/services/children-3-21/seeds-preschool-early-intervention-services/>

## EVALUATIONS FOR BEHAVIOR AND DEVELOPMENT

**MANY TYPES OF PROFESSIONALS CAN EVALUATE CHILDREN FOR AUTISM AND ADHD INCLUDING PSYCHOLOGISTS, PSYCHIATRISTS, NEUROLOGISTS, NURSE PRACTITIONERS, LICENSED CLINICIANS & DEVELOPMENTAL PEDIATRICIANS. USE THIS RESOURCE GUIDE TO FIND A PROVIDER THAT CAN HELP, THERE IS NO NEED FOR LONG WAITING LISTS!**

**PCIT** (Parent Child Interactive Therapy) is a new and proven behavior therapy technique that parents can learn to do for only 5 minutes a day with their young child that is effective for helping with many problem behaviors, such as tantrums, aggression, ADHD and defiance.... check it out!

<http://dbhids.org/about/organization/epic/ebps/parent-child-interaction-therapy/>

### PHILADELPHIA AUTISM CENTERS OF EXCELLENCE( PACE) & CGRC

Contact Gina Caruso at [gcaruso@mhasp.org](mailto:gcaruso@mhasp.org) 267-507-3872

## **INTENSIVE FAMILY SUPPORTS CONTINUED**

**Center for Grieving Children** 3300 Henry Avenue, 19129 267-437-3123 <http://grievingchildren.org/> Free!

A safe and caring place where children and families who are grieving can find help. Three locations: West Philadelphia, East Falls and Lower Northeast.

**Philadelphia Anti Violence Partnership**, 2000 Hamilton Street, 19130 [avpphila.org](http://avpphila.org) 215-567-6776 Free!

Counseling to adult and child co-victims of homicide and victims who have been traumatized by other forms of violence.

**Philadelphia ACE Task Force (Averse Childhood Experience)** <http://www.philadelphiaaces.org/events>

A collaboration and partnership offering resources and trainings for those who work with families and children experiencing stressors that affect their well-being. Sign up for their workshops and mailing list.

**DBHIDS's EPIC:** (Evidence Based Practice and Innovation Center at CBH) provides specialized Evidence Based therapy for a range of unique needs for children and families including Trauma Informed Therapy, PCIT and CBT. Please refer to their website for a more comprehensive overview of therapies and the centers that provide this FREE service:

<http://dbhids.org/epic/evidence-based-practices-in-philadelphia/>

**Sesame Street** <http://www.sesamestreet.org/toolkits> offers many amazing resources:

-for families with an incarcerated parent: <http://www.sesamestreet.org/toolkits/incarceration>

-for children needing to navigate difficulties in their community

<http://www.sesamestreet.org/toolkits/challenges>

-for children who are experiencing grief and loss: <http://www.sesamestreet.org/content/grief>

**Stories Alive;** gives incarcerated parents the opportunity to read and connect with their children during a live video-conference call. <https://libwww.freelibrary.org/programs/prisonservices/storiesalive.cfm>

**National Child Traumatic Stress Network** <https://www.nctsn.org/audiences/families-and-caregivers>

This website offers resources are for parents, adoptive parents, resource/foster parents, grandparents, caregivers, and all others who care for children and teens in many different languages. The more caregivers learn about how traumatic events affect their children (whether toddler, school-age, teen, youth, or adult), the more they understand the reasons for their children's behaviors and emotions, and the better prepared they are to help them cope. When children know that caring adults are working to keep them safe and support them in understanding their reactions to trauma, most can recover and go on to live healthy and productive lives.

### **BED BUGS**

Philadelphia/Penn State Bed Bug Task Force (English and español) :

<http://extension.psu.edu/pests/ipm/news/2015/new-bed-bug-task-force-in-philly>

NNCC Safe and Health Homes Program: <https://www.nccc.us/program-center/a-healthy-environment-for-families/185-safe-and-healthy-homes-program>

## **Behavior Health Alternatives for Children**

### **Philadelphia Targeted Case Management Blended Case Management (BCM) 215-599-2150**

For any child with a MENTAL HEALTH (DSM) diagnosis needing supports to navigate systems and resources, attend appointments, or follow treatment recommendations from school or a behavioral health provider. A BCM can be a liaison between school and a home and can make BHRS(Wrap Around) services more effective by assisting with family engagement. This service is NOT part of BHRS/Wrap Around and a person does NOT have to have insurance. BCM is usually set up within 2 weeks of a professional making the referral. Interpreters are available upon request. \*Referrals are preferred to come directly from the professional with the family's consent.

<http://dbhids.org/about/organization/office-of-mental-health/coordinated-consumer-services-ccs/targeted-case-management-tcm/>

**Parent Support Classes:** Philadelphia is home to many wonderful FREE Parent's Programs in this city for every kind of family or person, even just for Dads. [pcreferrals@phmc.org](mailto:pcreferrals@phmc.org) 215-825-8259

**PCIT:** Parent Child Interactive Therapy is for children ages 2 to 8 with behavior problems as well as children with interpersonal, attachment, attention and aggression issues. It is available for families at a variety of agencies (see pages 4-7). This technique has proven to help many kids who were thought to need medication or who were diagnosed with ADHD but after their families fully participated in this program they were no longer diagnosed and did NOT need medication! Try it!

**PCIT Brochure:** [http://dbhids.org/wp-content/uploads/1970/01/EPIC\\_PCIT-brochure.pdf](http://dbhids.org/wp-content/uploads/1970/01/EPIC_PCIT-brochure.pdf)

**PCIT Providers in Philadelphia:** [https://dbhids.org/wp-content/uploads/2016/05/EPIC\\_PCIT-Provider-List.pdf](https://dbhids.org/wp-content/uploads/2016/05/EPIC_PCIT-Provider-List.pdf)

<http://www.paautism.org/ASDSeminar/itemid/6755/First-Responder-Training>  
Justice Resource Collection: <http://www.paautism.org/resources/All-Resources/All-Resources-Details/itemid/7152/Justice-Resource-Collection>

**Fred's Footsteps** <http://fredsfootsteps.org/our-program/> grants that may be at times to pay for safety items such as fences, alarm systems and accessibility equipment or renovations. See website for more details.

## **Behavioral Support and CBH**

### **Community Behavioral Health (CBH)**

801 Market Street, 7<sup>th</sup> Floor, 19107

1-888-545-2600

[www.phila-bhs.org](http://www.phila-bhs.org)

Special Needs Unit: 215-413-7663

CBH is the mental health HMO for Philadelphians with Medical Assistance. CBH oversees many programs that private insurances do not pay for such as therapeutic preschools, Wrap-Around services and home-based family therapy. Families with private insurance can obtain Medical Assistance (in most cases) for their disabled child (called PA95, or “the MA loophole”). For more information on how to apply for Medical Assistance, see page 35.

### **What is Wrap Around?**

Wrap Around (aka: BHRS) is a behavioral health support service provided by a team that may consist of a Behavior Specialist Consultant (BSC), a Case Manager and a Therapeutic Support Staff (TSS) Worker paid for only through Medical Assistance. Families who have MA can contact a provider directly (many are listed on pages 4-7) or call CBH at the number above. *Wrap Around staff are not childcare staff, they must work with a child when a “responsible adult” is present, they do not participate in personal hygiene care such as changing diapers.*

**BCM (Blended Case Management)** A support for families who are having difficulty navigating systems, attending appointments, obtaining resources about getting supports for their child, or following through on treatment recommendations from school or a behavioral health provider. Often, a BCM acts as a liaison between school and home and can make BHRS services more effective by assisting with family engagement. BCMs can be for a child or an adult with a MH diagnosis such as Autism, ADHD, or Depression. This service is provided through the DBH/IDS Targeted Case Management referrals are preferred to come directly from the professional, NOT the family however it is imperative to have the family’s consent. For more info please call 215-599-2150 or see this website:

<http://dbhids.org/about/organization/office-of-mental-health/coordinated-consumer-services-ccs/targeted-case-management-tcm/>

### **Behavioral Health Services and Act 62**

Families with private insurance may be entitled to have behavioral services covered up to \$38,200/year. To qualify for Act 62 the private insurance must come from an agency that has 50 or more employees and is not “self-insured” or “ERISA”.

<http://www.dhs.state.pa.us/foradults/autismservices/pautismsinsuranceact62/autismsinsuranceactfactsheet/index.htm>

## **Medical Assistance and SSI**

### **MA for Children with a Disability – Known as PH95**

MA( Medical Assistance) is medical insurance that may cover things that your child’s primary insurance does not cover. If your child is disabled you may want to explore obtaining MA benefits for him/her.

### **What does MA pay for that my private insurance might not cover?**

**Wrap-Around Services**--Wrap-Around services provide some children with a mental health diagnosis home or school based behavioral supports and therapy and in some cases may also provide ABA therapy.

**Medical, Nursing and Home Health Aide Services**-- MA can pay for medical or therapy equipment, co-pays, deductibles, transportation to medical appointments, medical bills not covered by your insurance (from up to 3 months ago) and nursing services that are medically necessary.

**The Diaper Program**-- Diapers are paid for by MA when a child continues to need diapers after the age of 3 due to his/her special needs. See page 38.

***MA is a medical insurance program, it is NOT WELFARE. Once your child receives MA you will need to recertify his/her case annually, either over the phone or through the mail. If you already have private insurance you can keep it and in addition, obtain MA to supplement your child’s coverage.***

### **Transportation to medical appointments** LogistiCare at 1-877-835-7412 [www.logisticare.com](http://www.logisticare.com)

The Medical Assistance Transportation program can provide rides or reimbursement for public transportation or car use for a parent and a child going to or from a medical appointment.

### **Medical Assistance Special Needs Coordinators:**

All health insurances have Coordinators available to assist children with special needs and their families to navigate systems more effectively. Call your insurance company to obtain this free service.

## How to Apply for Medical Assistance

### OPTION A:

Families can call the Child Healthwatch Helpline at PCCY at 215-563-5848 X 17. PCCY will take your information on the phone, gather documents from you by mail or email (dzubow@pccy.org) and send your application in for you. PCCY works often with families in Early Intervention and can follow up on any application if there is a problem.

OR

### OPTION B: (“DIY Version”)

1. Call The “Healthy Kids Help Line” at 1-800-986-KIDS (5437) and ask to have a MA application sent to you (ask for application PA600HC) or download an application online at:  
<http://www.dhs.state.pa.us/findaform/index.htm> and then type in PA 600 HC in the form # field  
After completing the application, please write “**MA FOR DISABLED CHILD HANDBOOK SECTION 305 Appendix C95**” across the top of the form. This will alert the caseworker to consider the child for eligibility because of their disability.
2. **DOCUMENTATION!!!!** You will need to provide proof of the following items by providing copies.  
The only proofs required by law are:
  - proof of any income in the household, including income received in the child’s name.
  - proof of disability (medical or psychological evaluation written by a licensed clinician within the last 3 months)
  - proof that you did apply for SSI and were rejected due to income (families who do not meet the poverty cut off for SSI, may obtain a “letter of rejection” over the phone you do not have to GO to the SSA office)
  - if the client is an immigrant they must provide immigration documents – such as “green cards”

**Our advocates at PCCY are aware that families may be asked for more documentation however if this is the case please contact PCCY’s Child Healthwatch Helpline at 215-563-5848 X 17!**

<http://www.pccy.org/resource/applying-for-chip-or-medical-assistance/>

#### **...a word about SSI:**

SSI, (Supplemental Security Income), is a federally funded program which provides a monthly check **and** Medical Assistance for people who qualify. To qualify you must have a disabling condition **PLUS** meet income guidelines to be eligible. To apply, call **800-772-1213**, or log on [www.ssa.gov](http://www.ssa.gov). ( Search for Supplemental Security Income and go the Application link).

3. Mail the application (make copies and send registered or certified mail so you get a receipt *in case it gets lost*), get a receipt!  
County Assistance Office Phone: 215-515-6400  
Philadelphia County Assistance Office  
Philadelphia State Office Building  
801 Market Street , Philadelphia, PA 19107
4. The application will be forwarded to your local County Assistance Office. You should hear from them in a letter within 30 days about the status of your application. This letter will contain the name and phone number of the caseworker assigned to your child’s application and your case record number. They may need more information. Keep in mind that the state rule says that you do not need to go to the office at all for an appointment, you can phone, fax or mail information.

**OPTION C.** on line via the State of PA benefits webpage: <https://www.compass.state.pa.us/>

## **The Diaper Program (Only for children over 3)**

If your child is three years of age or older and is using diapers because of a developmental delay or medical reason he/she can receive a case of diapers and wipes delivered to your home.

### **For Child with Medical Assistance, here is what you can do:**

Call your child's health provider (this is usually the number written on the back of your medical card).

1. Ask the insurance provider what Durable Medical Equipment Company they contract with in your area and get the name and phone number of that company.
2. Call the equipment company and explain that you want to get your child on the diaper program. They will do an intake with you over the phone and then they will ask you to call your doctor and have the doctor fax a prescription for diapers and wipes to them. **Get the equipment company's fax number.**
3. Call your doctor's office and explain that you need to fax a prescription for diapers directly to the equipment company. The prescription needs to include the child's size and diagnosis.
4. Soon you will begin to receive diapers each month. You will need to renew this process each year if your child continues to need them.
5. If you do not receive the diapers and wipes please call the Medical Equipment Company to check in with them.

### **For children with Private Insurance in addition to Medical Assistance (i.e. from a parent's job).**

1. Submit the diaper prescription to the health plan for payment to the durable medical equipment company.
2. The private health plan will deny the payment. Ask for a denial letter in writing.
3. Resubmit the claim to the medical assistance plan provider with the written denial from the private health plan.
4. The durable medical equipment companies can guide you through the rest of the process.

## **El Programa de Pañal (This is the same information as above but in Spanish)**

Si su niño tiene tardanzas del desarrollo y tiene más de 3 años, él o ella pueden recibir pañales gratis por la asistencia médica.

Siga estos pasos:

1. Llame el 1-800 número de teléfono al dorso de la tarjeta médica de su niño para averiguar a quién su "Equipo Médico Duradero local" abastecedor es.
2. Llame aquel abastecedor, y hable con ellos sobre "el programa de pañal". Ellos le dirán que usted tendrá que conseguir una prescripción del doctor de su niño y ellos le darán el número de fax mandar por fax la prescripción.
3. Llame la oficina de doctor de su niño y dígalos que su niño necesita al doctor para mandar por fax una prescripción para pañales a la compañía. La prescripción debería declarar el diagnóstico de su niño y debería solicitar un suministro de un 3 mes de pañales con recambios. ¡Asegúrese que el doctor escribe el tamaño de pañal de su niño la prescripción también!
4. La farmacia que proporciona estos pañales dispensará automáticamente pañales genéricos a menos que el doctor declare una razón médica de una marca de nombre.
5. Usted puede ser aprobado para limpia también.
