Magnet Schools

Barbour Two-way Language Immersion Elementary School

Barbour Language Academy strives to create a multicultural school that assures boundless opportunities for students and their future by teaching them to speak, read, and write in Spanish and English.

Ellis Arts Academy

Ellis Arts Academy celebrates the unique spirit of our children and builds successful and caring citizens through the development of artistic talents and academic strengths.

Page Park School Fresh View Programs

The mission of the Fresh Start and Fresh View Programs is to address each student's behavior and academic needs in a pro-active manner, so that each student, regardless of functioning level, grade placement or age, will be able to have a reasonable opportunity for success in school and in the community. The Fresh Start Program in cooperation with parents, community agencies, and the home school will provide an educational setting that is committed to helping each student develop a more positive self-image and better attitude toward school and learning. The program will do everything necessary to insure that each student will achieve up to their ability level, enjoy learning, and value the school experience. Fresh Start will provide every instructional and interpersonal support and opportunity to enable each student to become a more positive and contributing member of their school, family, and community. The Fresh Start/Fresh View staff is committed to the program's success and has a strong belief that all students can behave and will learn.

Maria Montessori School

In the Montessori classroom, children are encouraged to take responsibility for their own education. In a prepared environment with a trained Montessori teacher, children may move freely around the room selecting materials needed to carry out the child's plan. We are a Montessori School for grades Pre-Kindergarten (4 year olds) to 6th grade.

Leadership and Learning Academy

The vision of Leadership and Learning Academy is to address students' academic and behavioral needs in a pro-active manner while providing opportunities for them to achieve, enjoy learning, and value the school experience with the overall goal of preparing them to compete in a global society.

Washington Academy

Washington Academy provides a challenging education for the students who test into the Gifted Program. The belief is that students with high abilities will successfully attain their academic potential through a specialized educational program using demonstrated best practices in gifted education. Skills are accelerated and creative, analytical thinking is infused into core subject areas. A positive atmosphere is maintained where students develop confidence, responsibility and integrity, and they are not reluctant to show that they are bright and talented.
